## What's New In Gizmo Editor?

Gizmo Editor is a text editor for Windows and Linux (Gnome). The program allows you to edit your files using an interface similar to MS Word (with the standard Windows toolbar and with a very friendly user interface). You can view single files or mark selected parts of a file for editing. You can edit in more than one file at a time. You can switch between Vim and GVim modes at any time. Inline comment syntax is available for C/C++ language. Active line formatting is available on the selected lines, and on the entire file (as an option). Horizontal and vertical line indentation can be set on a perline basis. Code folding is supported for C/C++, Java, and Javascript languages. Indentation of structures and members is supported, keeping a uniform style. Features include: - Integrated syntax highlighting (color codes for the majority of languages) - Highlight badly formatted text (copyright, tabs, etc.) - Map colors to variables and functions, thus improving readability of dark text -Indentation (C/C++ style, emacs-style, python style) - Increase or decrease indentation (Increase the number of spaces in the file) - Insert/remove tabulator characters (hard to detect) - Search and replace within files (C/C++, javascript, html, xml,...) - The file can be saved with a new name - A text file can be saved as compressed or uncompressed (gzip,...) - A text file can be saved as RTF (Rich Text Format) - Support for multiple languages (English, French, German, Greek, Portuguese,...) -Support for references ("cite") - Insert/remove « end of screen » character (character code "UTF-16BE" or "UTF-16LE"). - Support for different coding systems (UTF-8, UTF-16, UTF-16BE, UTF-16LE, UTF-16,...) - Support for saving with leading/trailing blanks. - Support for displaying file

permissions and owner/group/world. - Support for files with different text encodings, Latin1, Unicode, ASCII, UTF-8,... - Support for absolute and relative line numbers for multiline selections - Align text relative to columns. - Syntax highlighter (color code for C
