In both rooms the cobwebs are so thick in the corners of the ceiling that you can't even tell there's a ceiling until you're in the room. A: You can remove them before they get bigger and harder to get off. Use a vacuum cleaner with a beater bar and the wide-bore tip, and clear the room completely. Start at the floor, moving up, and leave the vac running as you move around the room, making sure to back it over obstacles (take it off and look at the floor before you move the vacuum back over it). You should be able to vacuum the whole room in about 10-15 minutes.
